

4 Refs from Richard

	Document ID	Source	Issue Date	Pages	Title	Current OR	Retrieval Classif
1	US 5161102 A	EPO	19921103	29	Computer interface for the configuration of computer system and circuit boards		
2	US 5257387 A	EPO	19931026	48	Computer implemented method and apparatus for dynamic and automatic configuration of a computer system and circuit boards including computer resource allocation conflict resolution		
3	US 5353432 A	EPO	19941004	51	Interactive method for configuration of computer system and circuit boards with user specification of system resources and computer resolution of resource conflicts		
4	US 5450570 A	EPO	19950912	55	Computer implemented method and apparatus for dynamic configuration of a computer system and circuit boards including computer resource allocation conflict resolution		
5	US 5588143 A	EPO	19961224	23	Automatic computer upgrading		
6	US 5161102 A	USPAT	19921103	29	Computer interface for the configuration of computer system and circuit boards	710/104	<i>Done OK</i>
7	US 5257387 A	USPAT	19931026	48	Computer implemented method and apparatus for dynamic and automatic configuration of a computer system and circuit boards including computer resource allocation conflict resolution	713/600	<i>Done OK</i>
